Contact information

- ## About me

Attention to detail, computer skills, communication skills and problem solving are skills that I have developed in performing my current duties. It is extremely important to ensure that I have great attention to detail when picking and packing orders to avoid any mistakes. In addition to these skills, I am a team player and enjoy working with people from all walks of life. I am also happy to take initiative and work on my own when required. I am always eager to learn and look forward to a challenge. I have a passion for delivering the best work I can give and I will always go the extra mile to make sure that I learn quickly.
